

OWATROL®

NET-TROL®

RESTORES ORIGINAL COLOUR OF WOOD, CLEANS ALL SURFACES...

USAGE

- Exterior.
- Dirty and grey wood: red cedar, larch, ash, pine, ipé, iroco, teak etc.
- Horizontal (decks, outdoor furniture...) and vertical (windows, doors...) surfaces.
- Cleans rust and other stains on cement.
- Mouldy stone.
- Faded plastic.

PROPERTIES

- Cleans and regenerates all surfaces.
- Returns grey wood to its original colour.
- Cleans tannin spots on some woods.
- Eliminates stains and wear caused by weather, mould, rust, pollution etc.
- Rejuvenates faded plastic exposed to UV light.
- Neutralises surface after stripping with Peneprep, Dilunett or other strippers.
- Degreases woods' surface before applying oils such as DEKS OLJE D1® or TEXTROL® on exotic woods.
- Not aggressive, does not affect the original material.
- Water soluble.

APPLICATION

- Shake the product well before use.
- Wet the surface with water and make sure it is clean.
- Apply NET-TROL® with a brush or synthetic roller.
- Rub the dirty spots with a hard nylon brush.
- Allow NET-TROL® to act on surface for 10-20 minutes.
- Rinse off with water and brush or apply water with pressure (max 60 bars).
- Repeat application of NET-TROL® if necessary.
