

SAFETY DATA SHEET

SABA Seal One Fast

1. Identification of the substance/preparation and company/undertaking

Identification of the substance or preparation

Product name : SABA Seal One Fast
Article no. : 100792a
Use of the substance/preparation : Sealant

Company/undertaking identification

	<u>Manufacturer</u>
COMPANY NAME	SABA DINXPERLO BV
Address	Industiestraat 3 P.O. Box 3 NL - 7090 AA Dinxperlo The Netherlands
Telephone no.	+31 315-658999
Telefax no.	+31 315-653207
e-mail	info@saba.nl
Internet	www.saba.nl
Emergency telephone number	+31 315-658999

2. Composition/information on ingredients

Substance/preparation : Preparation

Within the present knowledge of the supplier, this product does not contain any hazardous ingredients in quantities requiring reporting in this section, in accordance with EU or national regulations.

3. Hazards identification

The preparation is not classified as dangerous according to Directive 1999/45/EC and its amendments.

Classification : Not classified.

Physical/chemical hazards : Not applicable.

See section 11 for more detailed information on health effects and symptoms.

4. First-aid measures

First-aid measures

Inhalation : Adverse health effects are considered unlikely.

Ingestion : Do not induce vomiting unless directed to do so by medical personnel. Never give anything by mouth to an unconscious person. If swallowed, seek medical advice immediately and show the container or label.

Skin contact : In case of contact, immediately flush skin with plenty of water while removing contaminated clothing and shoes. Wash clothing before reuse. Obtain medical attention if symptoms occur.

Eye contact : Check for and remove any contact lenses. Immediately flush eyes with running water for at least 15 minutes, keeping eyelids open. Get medical attention if irritation occurs.

Protection of first-aiders : No action shall be taken involving any personal risk or without suitable training.

See section 11 for more detailed information on health effects and symptoms.

5. Fire-fighting measures

Extinguishing media

- Suitable** : Use an extinguishing agent suitable for the surrounding fire. In case of fire, use water spray (fog), foam, dry chemical or CO₂.
- Not suitable** : None known.
- Special exposure hazards** : No specific hazard.
- Hazardous thermal decomposition products** : These products are carbon oxides (CO, CO₂), nitrogen oxides (NO, NO₂ etc.). Some metallic oxides.
- Special protective equipment for fire-fighters** : Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.

6. Accidental release measures

- Personal precautions** : Immediately contact emergency personnel. Keep unnecessary personnel away. Use suitable protective equipment (section 8).
- Environmental precautions** : Avoid dispersal of spilt material and runoff and contact with soil, waterways, drains and sewers.
- Methods for cleaning up** : If emergency personnel are unavailable, contain spilt material. For small spills, add absorbent (soil may be used in the absence of other suitable materials), scoop up material and place in a sealable, liquid-proof container for disposal. For large spills, dyke spilt material or otherwise contain material to ensure runoff does not reach a waterway. Place spilt material in an appropriate container for disposal.

7. Handling and storage

- Handling** : Avoid contact with eyes, skin and clothing. Keep container closed. Avoid contact of spilt material and runoff with soil and surface waterways. Wash thoroughly after handling.
- Storage** : Keep container tightly closed. Keep container in a cool, well-ventilated area.
- Packaging materials**
- Recommended** : Use original container.

8. Exposure controls/personal protection

- Exposure limit values** : Not available.
- Exposure controls**
- Occupational exposure controls** : Ensure that eyewash stations are close to the workstation location.
- Respiratory protection** : Adverse health effects are considered unlikely.
- Hand protection** : Gloves complying with an approved standard should be used when a risk assessment indicates this is necessary.
We have had good experiences using: neoprene (1-4 hour/hours (breakthrough time)).
- Eye protection** : Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists, gases or dusts.
Possible: Safety glasses.
- Skin protection** : Personal protective equipment for the body should be selected based on the task being performed and the risks involved. Barrier creams may help to protect the exposed areas of the skin but should not be applied once exposure has occurred.
Recommended: overall
Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period. Wash contaminated clothing before reusing.

9. Physical and chemical properties

General information

Appearance

- Physical state** : Liquid.
Colour : Black.
Odour : Characteristic.

Important health, safety and environmental information

- Flash point** : Closed cup: >150°C (302°F).
Relative density : Weighted average: 1.48 g/cm³ (Estimated.)

10. Stability and reactivity

- Stability** : The product is stable.
Materials to avoid : Extremely reactive or incompatible with the following materials: oxidizing materials.
 Reactive or incompatible with the following materials: moisture.
Hazardous decomposition products : These products are carbon oxides (CO, CO₂), nitrogen oxides (NO, NO₂ etc.). Some metallic oxides.

11. Toxicological information

Potential acute health effects

- Inhalation** : No known significant effects or critical hazards.
Ingestion : No known significant effects or critical hazards.
Skin contact : No known significant effects or critical hazards.
Eye contact : No known significant effects or critical hazards.

Potential chronic health effects

- Carcinogenicity** : No known significant effects or critical hazards.
Mutagenicity : No known significant effects or critical hazards.
Reproductive toxicity : No known significant effects or critical hazards.

12. Ecological information

There is no data available on the preparation itself. Do not empty into drains; dispose of this material and its container in a safe way.

- Other adverse effects** : No known significant effects or critical hazards.

13. Disposal considerations

- Methods of disposal** : The generation of waste should be avoided or minimised wherever possible. Avoid dispersal of spilt material and runoff and contact with soil, waterways, drains and sewers. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements.
- European waste catalogue (EWC)** : 080410
 08 04 10 waste adhesives and sealants other than those mentioned in 08 04 09
- Hazardous waste** : Within the present knowledge of the supplier, this product is not regarded as hazardous waste, as defined by EU Directive 91/689/EEC.

14. Transport information

International transport regulations

14. Transport information

Regulatory information	UN number	Proper shipping name	Class	PG*	Label	Additional information
ADR/RID Class	Not regulated.	-	-	-		<u>Classification code:</u> - <u>Limited quantity</u> - <u>CEPIC Tremcard</u> -
IMDG Class	Not regulated.	-	-	-		<u>Emergency schedules (EmS)</u> -

PG* : Packing group

15. Regulatory information

EU regulations

- Risk phrases** : This product is not classified according to EU legislation.
- Product use** : Classification and labelling have been performed according to EU Directives 67/548/EEC and 1999/45/EC (including amendments) and the intended use.
 - Industrial applications.

16. Other information

History

- Date of issue** : 7-7-2006.
- Prepared by** : J.W. Diesveld
